Fig. Ing. Beschen (fau) - Boschen is consulting e Bessau and apparently also a lecturer at the	encineer in Ic encineering	50X1-HUM

All other PKF ancincers have specialized in various phases of hydrogenation contained in the plans and documents at hand. They are engaged, for example, in summarizing and describing the most modern German hydrogenation plant, Poelitz, near Stettin, the Krasnoy Proliminary Project, or the documents of Gineral contain 16 from before 1945 which are still available
